

XF Solutions

Output Options

A variety of output options to meet every need

The modular architecture of EFI Colorproof XF and EFI Fiery XF enables you to customize the solution to your existing output devices and workflow. It offers you the flexibility to control various printers, cutting engines and print & cut devices as well as to export files for various purposes. Conclusively there are no limits when it comes to meeting your requirements.

Printer Option M, XL und XXL

Colorproof XF and Fiery XF support a variety of output devices such as aqueous, solvent and eco solvent inkjet, LED and laser printers. Three options are available depending on the printer size:

- **_Printer Option M:**
For printers with a printing width of 18" or A2
- **_Printer Option XL:**
For printers with a printing width of 19" to 24"
- **_Printer Option XXL:**
For printers with a printing width over 24"

Dedicated Printer Options

Enjoy the seamless integration of your printing device with EFI RIPs. Print your jobs with high speed and tap the full potential of your device.

- Printer Option VUTEk:** supports EFI VUTEk printers
- Printer Option Rastek:** supports EFI Rastek printers
- Printer Option OKI:** supports OKI printers
- Printer Option Special:** supports Mimaki UJJ-605

Print & Cut Option

Enables one-step Print & Cut on supported print & cut devices (includes a Printer Option XXL).

File Export Option

Prepare your data for specific print conditions and output a colour-corrected TIFF file to ensure optimum output quality. You can choose either to keep your input resolution or to switch to a desired output resolution. When it comes to obtaining approval from your customers, you can export bit-map PDFs that are reproduced in the same way on all systems, thereby facilitating fast and effective binding approvals.

Fiery Option

The Fiery Option enables you to leverage two pioneering technologies from EFI. The solution combines the tried-and-tested colour quality and consistency of Bestcolor Technology with the exceptional performance of Fiery controllers. Benefit from the flexibility of a multifunctional printer pool for content and contract proofs, and digital print production.

Please refer to the Fiery Option data sheet for further information.

XF Solutions

Gravur Option

The Gravure Option offers customers a cost-effective digital engraving solution. Separated greyscale TIFFs which have been output can be used to engrave gravure cylinders, thus closing the gap between design and the electromechanical engraving system.

Cut Server Option

Comprehensive cutting solution driving vinyl cutters and routing tables from industry leading partners.

EFI Colorproof and Fiery XF Output Options

EFI's portfolio of integrated solutions increases productivity and improves your bottom line. Find out more at www.efi.com.

*Any combination of Fiery Driven Devices and Hot folders up to maximum of five Output alternatives.
